

Two hot cooks in East Dundee, IL when the heat was excruciating in the summer of 2023. We installed a couple of Oceanaire OWC1811 water cooled units in the kitchen area and another one located at the entrance to the restaurant. Portable water cooled are the alternative when an air-cooled unit is not an option. Restaurants are common applications for spot-coolers. Our Climate Control team is always on their toes to answer your call when the phone rings. Dropping what you are doing afterhours and weekends is not uncommon, since customer service is always Rent AC's top priority.
