

Common applications for “Rent AC” are fast food restaurants. Replacing a rooftop unit can take time so temporary AC is necessary during unbearable hot weather. When the hot weather strikes, people are looking for relief, especially individuals that work outdoors. This restaurant in Lansing, IL was in a situation during the summer of 2023 where their central AC system completely failed. After installing our Emergency AC cooling equipment in a flash, the customer was appreciative of how fast we reacted to their emergency cooling situation.
